

See Green... for years to come.

It's clean. It's renewable. It's good for our environment,
and it can power our future.

For as little as \$3 a month, you give Marlboro Electric Cooperative the power to collect landfill gases to use as fuel to generate electricity. And for just two dimes a day*, we can have the environmental impact of not driving for almost 3 months or planting over 1/3 acre of trees a year.**

Sign up! GreenPower is a totally voluntary program. Simply call us or fill out the attached form and send it in with your bill payment. To learn more, go to our website at www.marlborelectric.coop

Renewable resources: more than 99% landfill gas and less than 1% solar. Participation in GreenPower is voluntary by Marlboro Electric Cooperative and its members. A member may discontinue participation in GreenPower at any time. Marlboro Electric Cooperative and Santee Cooper may alter, amend or end GreenPower at any time. The Green-e Program certifies that GreenPower meets the minimum environmental and consumer protection standards established by the non-profit Center for Resource Solutions. For more information on Green-e certification requirements call 1-888-63 GREEN or log on to www.green-e.org.

1 block = 100 kwh or about 10% of a typical household's monthly energy use. Each block will add an extra \$3 to your monthly electric bill.
